THE ORIGINAL

Pop Art Flex - Donald

The History Of The Aptica Box

Aptica is unlike any other brand of ready reading glasses that you know. The ECO displays were designed and developed with care, just like our frames, to provide you with the best tools to show and sell our products to your customers. All displays are compatible with our unique Box to create the ultimate buyer's experience. Start today, plug-and-sell.

Think inside the box

The Aptica Black Box is what we call "The Set". It contains 4 different products in 6 diopters each, which make 24 pieces. Usually it is one style in 4 colours but you can also choose a mix of 4 styles.

The Box

The Set

Plug & Sell

This box is then inserted into your chosen display. Our displays are built to accommodate 1, 4 or 8 sets. This concept makes it easier to know when stock has to be replenished and which diopters are needed.
