NEW INTRODUCTION

ROSA COLLECTION NEW COLOR: ROSÉ PINK

Beautiful outdoor spaces become the perfect backdrop for unforgettable moments. Host in your garden with the Rosa collection to create lifelong memories, where every detail adds to the magic of the experience.

Enchanting and romantic gatherings in the garden

We've chosen **Rosa** as a symbol of charm for this spring-summer garden lunch. In setting the table, we drew inspiration from the collection's **beautiful new rose tone**, its feminine cutouts, hand-painted rims, and flowing edges. To complete the setting, we've selected **Sensa** glassware, **Maria** napkins in mint, and **Mito** flatware to add a touch of modern elegance. Pink roses for **Rosa** and a hint of local goldenrod bring an informal, natural touch to the arrangement.

Above, left to right: Grespresso lungo cup 19 cl in soft pink. Rosa dinner plate 28 and soup/pasta plate 25 in rosé pink with Mito flatware in cru.

Comporta days are all about slowing down, savoring simple pleasures, and reconnecting with nature. It's the perfect place to get lost in the feeling of simple luxury. The Rosa collection fits beautifully with this spirit — its simple design embodies a sense of understated luxury.

The ground is sandy and covered with various plants, including agave, aloe vera, and succulents. A wooden folding chair is in the foreground on the left. Now, in Portugal, my new home, I continue to uncover breathtaking landscapes. What ties all these places together are the sun, vibrant colors, the gentle summer breeze, and the unforgettable memories of long evenings dining under the stars.”

The first *Sunday* lunch

Warmer days call for outdoor gatherings, and the first Sunday lunch with family and friends marks the beginning of the season.

The first Sunday lunch with family and friends outdoors in the patio marks a cherished tradition that highlights the arrival of the outdoor season. There's something special about dining *alfresco*, surrounded by nature.

The fresh air invigorates our spirits, while the warmth of the sun encourages laughter, conversation, and a sense of connection. It's a time to step away from our busy lives and relish in the joy of shared moments, delicious food, and vibrant surroundings. For this first lunch of the *saison*, we've chosen to set the table with **Taormina**. Its **new reactive glazed colors** evoke a sense of joy and capture the essence of sunny days. The **vibrant lime green**, complemented by shades of reactive blues and whites, embodies the spirit of spring, while **the calming yellow** transports us to sandy beaches and leisurely summer afternoon meals.

BEHIND THE SCENES

Each piece we craft is a testament to our passion for innovation, quality, and respect for people and the planet, inviting you to enjoy moments of connection around the table while making mindful choices for a brighter future.

As a leading Portuguese stoneware manufacturer, we proudly oversee a portfolio of four exceptional factories, nurturing two distinguished brands: COSTA NOVA and Casafina by COSTA NOVA. At COSTA NOVA, each piece of stoneware begins with a spark of inspiration and a meticulous design process that prioritizes innovation and sustainability. Our talented designers consider every aspect, from form and ergonomics to aesthetics and the product's life cycle, ensuring minimal environmental impact. We source raw

Many hands touch each of our stoneware products. While our four factories are equipped with state-of-the-art technology, the manual process still reigns supreme.

materials locally from Portugal's finest natural resources and incorporate recycled elements to enhance our commitment to sustainability.

Made in Portugal: Portugal is recognized as a leader in ceramic manufacturing. 'Made in Portugal' signifies quality as well as adherence to EU standards for fair wages, gender equality, safe working conditions, and environmental responsibility.

Our stoneware is crafted from natural clay and mineral-based materials, making it eco-friendly and biodegradable, with a manufacturing process that uses significantly less energy. Additionally, all of our excess clay is reused.

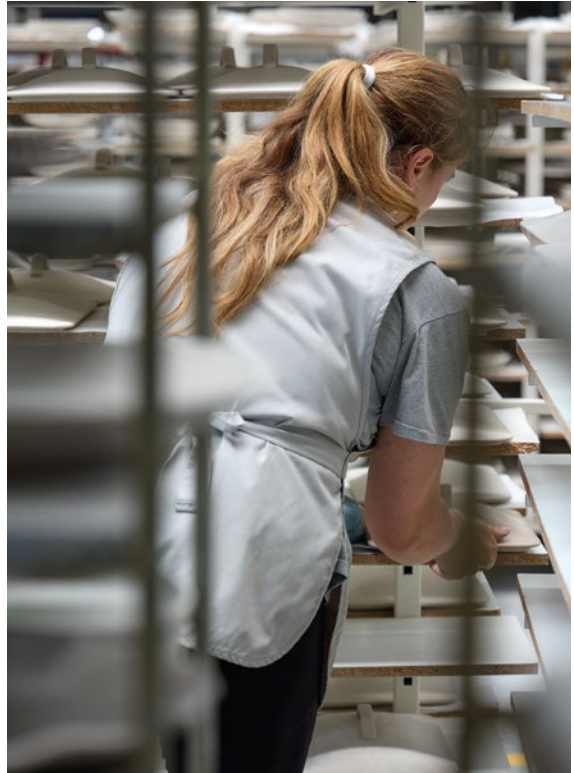

This commitment continues through the casting and molding stages, the decorating and the glazing... where artistry, precision and care are paramount. Even the firing process is significant, as stoneware is single-fired, reducing energy consumption and furthering the commitment to sustainability.

There is poetry in the stoneware manufacturing process. Each step is magical, transforming raw clay into a solid item that carries with it the artistry and craftsmanship of our artisans.

As the clay is shaped and refined, it undergoes a beautiful metamorphosis, evolving from a simple, malleable material into a durable functional piece.

Each moment spent in the factory is a celebration of creation, where we witness the fusion of skill and passion. This immersive environment fosters a deep appreciation for the craftsmanship involved in every piece we produce, turning our work into a shared journey of creativity and dedication.

Finally, this journey culminates in your hands, where your choice of sustainable tableware makes a significant impact.

Our molds are designed and produced internally, allowing for precise control over the form and quality of each stoneware piece. This ensures that each design meets our exacting standards for innovation and aesthetics.

For those of us who work in the factories, the experience of crafting stoneware is truly unique. The texture of the clay between our fingers connects us to the earth and our craft, while the mesmerizing rotation of the jiggering and jollying machines brings the clay to life. The rich aroma of freshly fired ceramics fills the air, a reminder of the transformative power of heat and artistry.

COSTA NOVA crafts sustainability through stoneware, integrating environmental and energy efficiency, eco-materials, social and employee responsibility, and ecological products.

Our factories employ a diverse group of people from different nationalities and cultures. Hundreds of individuals, the majority of whom are women, work in a safe and ethical environment to produce the most beautiful stoneware pieces in the world.
